

Final Project Presentation Announcement

Database Systems

DataLab, CS, NTHU

Spring, 2021

Schedule

- 6/21 (Mon.) 15:30 @ Google Meet
 - All presentations are now gathered into one day
- 5 mins presentation + 2 mins QA for each group
- TAs will announce the group order of presentation soon.

How to Present

- You could break down the presentation into several parts.
 - Idea
 - Why and how do you think the problems?
 - Hermes is worse in some cases...
 - Experiments
 - Show your data
 - Analyze
 - What do you find in the experiment data
 - My algorithm is better than Hermes in most cases
 - Why?
 - My routing algorithm considers ... so that it achieves better performance
 - Conclusion

Evaluation

- We will evaluate each group based on these 5 dimensions
 - Insight
 - Creativity
 - Performance
 - Experiment Solidity
 - Presentation
- Peer evaluation is required and also based on the above dimensions
 - Each group should submit their review and scores for other groups using Google Form.
 - TAs will announce a Google Form soon.

Award

- Best Innovation Award
 - Consider insight + creativity
- Best Implementation Award
 - Consider Performance + Experiment solidity
- Best Presentation Award
